

# Shaharukh Shafi Mithagari

Data Center Technician | IT Infrastructure & Server Operations

+91 8291025730 · mithagaris@gmail.com · Navi Mumbai, India · LinkedIn · GitHub

## Professional Summary

IT Infrastructure & Support Professional with **9+ years of experience** in **server hardware repair**, **component-level troubleshooting**, operating system diagnostics (Linux/Windows), and **networking protocols** (TCP/IP, DNS, DHCP, VPN). Experienced in hardware assembly, preventive maintenance, and data center operations. Comfortable working **non-standard hours including night shifts, weekends, and holidays** on shift-based schedules. Physically capable of lifting/moving 50 lb (23 kg) of equipment with sustained activity including bending, kneeling, climbing, and pushing/pulling.

## Core Competencies

|                                                            |                                                                      |
|------------------------------------------------------------|----------------------------------------------------------------------|
| • Component-Level Repair & Troubleshooting                 | • Server Hardware Diagnostics                                        |
| • Operating System Troubleshooting (Linux, Windows Server) | • Networking Protocols (TCP/IP, DNS, DHCP, VPN, Routing & Switching) |
| • Hardware Assembly & Preventive Maintenance               | • Data Center Infrastructure Support                                 |
| • Shift-Based & On-Call Operations                         | • VMware / Hyper-V Virtualization                                    |
| • Incident Management & Ticketing (ITIL V4)                | • System Monitoring & Backup Automation                              |

## Professional Experience

### System Executive

#### RDC Concrete Ltd

Apr 2025 – Present | Thane, Mumbai

- Set up and maintained IT infrastructure for multiple project sites, including LAN cabling, CCTV systems, and server hardware installation.
- Performed component-level hardware troubleshooting and repair on servers and workstations; coordinated vendor escalations for complex failures.
- Diagnosed and resolved OS-level issues across Windows Server environments; maintained uptime of critical site systems.
- Maintained IT asset inventory, documentation, and operational runbooks.

### System Administrator L1

#### Geekay Infotech

Sep 2024 – Apr 2025 | Mumbai

- Administered Linux and Windows/macOS systems; performed OS troubleshooting, patch management, and configuration changes.
- Configured and supported VPN connections and networking protocols for remote users.
- Managed backup systems and performed restoration testing; provided remote hardware support.

### Desktop Support Engineer

#### Niorn Systems & Services Pvt Ltd

Nov 2023 – Apr 2024 | Mumbai

- Provided hardware and software support for 45+ users including component replacement, OS reinstallation, and network connectivity troubleshooting.
- Diagnosed and resolved LAN/WAN, printer, and peripheral issues under SLA-driven timelines.

### System Engineer L1

#### Precision Techserver Pvt Ltd

Oct 2017 – Jul 2023 | Mumbai

- Performed component-level repairs and troubleshooting on servers and desktop hardware across a large-scale infrastructure environment.
- Diagnosed operating system failures on Linux and Windows Server; applied fixes, patches, and configuration changes to restore system health.
- Supported TCP/IP, DNS, DHCP, and VPN networking protocols; resolved connectivity incidents.
- Operated on shift-based schedules including nights and weekends to maintain 24/7 uptime.
- Logged, tracked, and resolved incidents using ITSM ticketing tools following ITIL practices.

## Certifications

---

- Serverless Cloud Computing – NASSCOM (Apr 2026)
- ISC2 Candidate – CC, Security Principles, Access Control Concepts – ISC2 (Sep 2025 – Sep 2026)
- Six Sigma White Belt – CSSC (Feb 2025)
- Introduction to ITIL® V4 – Simplilearn (Sep 2025)
- MSCIT – Maharashtra State Board of Technical Education (Jan 2012)
- C# Certification – HackerRank (Jul 2022)

## Notable Projects

---

- **Kiddotubes.com** – Built and deployed a kid-friendly video platform (Beta); managed hosting infrastructure.
- **NeuraFix** – AI-powered code companion tool (GitHub); full-stack development.
- **COVID-19 Tracker Dashboard** – Live data dashboard using public APIs; deployed and maintained.
- **Microsoft Chat Copilot** – Open-source contributor, PR #1123 merged.
